

Welcome To *Lake Norman Pediatrics*

Congratulations on the expectant arrival of your new little one! The pediatric providers and staff at Lake Norman Pediatrics would love to meet with you and spend time discussing this most important event. Being comfortable with choosing your newborn's physician and familiar with the office and staff, reassures you as new parents that you are making the best decision for your child.

Lake Norman Pediatrics has provided pediatric care to this community since 1987. The providers and staff are dedicated to caring for your child from birth through adolescence. Our team approach allows for complete coverage by physicians in this practice. We are pleased to provide separate Well and Sick office space. This additional space allows for improved scheduling with less waiting room time and less exposure to illnesses. We offer evening and Saturday morning hours to help you through those difficult times when you need your pediatrician. In-office laboratory services allow for comprehensive evaluations at the time of your visit.

Our location is near Historic Downtown Mooresville. Our office offers flexible scheduling with provider choice. Please come meet us by scheduling a courtesy prenatal visit. We are excited for you at this special time!
